## Dear Colleagues,

Following the previous successful years, we are pleased to announce the third Pneumo Update Europe, taking place June 24 & 25, 2016 in Prague.

Last year this congress received a participant evaluation grade of EXCELLENT and we will strive again to provide delegates with a relevant, educational and compact program – a complete overview of recent international developments across the broad spectrum of respiratory medicine.

You will receive 14 sessions featuring well-known, global experts, many discussion opportunities with speakers and other delegates, unbiased Take-Home Messages for you to implement directly into your daily work, and an extensive print compendium for you to take home.

Submit an ePoster and save on the registration fee! Share current research projects in our Digital Lounge, join colleagues for Interactive Case Discussions or go head-to-head with our speakers in the Speakers' Corners.

Interact, engage and get updated!

We are looking forward to welcoming you in Prague – the perfect host for our third go-round!

Sincerely,

Roland Buhl

David M. G. Halpin

Marc Humbert

Walter McNicholas
