Dear Colleagues,

We are pleased to announce the second Pneumo Update Europe which will take place in Budapest, Hungary, on June 19–20, 2015.

After the overwhelming success of the first Pneumo Update Europe meeting in Vienna in June 2014, we are looking forward to continuing this unique concept in 2015.

Over two days 14 leading experts will review recent advances across the spectrum of pulmonary medicine. There will be even more opportunities for interaction between participants and experts than in Vienna, with open discussions at the speakers' corner and during the interactive case discussions. ePoster sessions with the latest scientific research results will give young physicians the opportunity to present their work.

Budapest is a vibrant dynamic city with much to see! What better place is there to meet with colleagues and friends? Come and join us in Hungary; bring your experience and enthusiasm to make the second Pneumo Update Europe unforgettable. The scientific board is sure that you will have an exciting and informative experience with direct relevance to your clinical practice.
