Breathe Knowledge.

Dear Colleagues,

We have the great pleasure of inviting you to attend the “4th Congress of Respiratory Medicine Serbia 2015”, which will take place in Novi Sad, from the 15th to 18th of October, 2015.

Topics are carefully selected to compliment cotemporary approaches in all areas of respiratory medicine-from basic and researchable to practical and applicable in the diagnosis and treatment of lung diseases. The congress will be attended by many speakers from our country and abroad, with lectures that are important to all of us who fight the diseases of the respiratory system.

We hope that the meeting will provide a unique occasion for the exchange of scientific and clinical information, and will facilitate interactions between medical doctors, which will contribute significantly to the development of respiratory medicine in this region and beyond.

Yours sincerely,

Organising Chairman
Prof. dr Branislav Perin
